Manchester-Essex Regional High School

To the Class of 2005

As I settle well into the second month of my second year at Manchester-Essex Regional High School, I am beginning to develop a greater understanding of and appreciation for the special environment that is MERHS. The Class of 2005 has firmly established its reputation as a quality class both in terms of its outstanding academic prowess and its willingness to share its many talents with the school and greater community. You are an outstanding group of young people. I have come to know many of you well and I am deeply impressed with the many qualities that cause you to stand out from the rest.

Given the fact that you are truly an exceptional group of young people, I issue this challenge: be sure to use your talents to make the life of others less privileged than you a great deal better.

I am happy to have been a small part of what has made you so special and I hope that long after your days at MERHS have concluded, that you will come back and express your thanks and appreciation to those teachers who helped to make a difference in your life.

My best to each of you for a productive future and I feel confident that the world will be a better place in your hands. I am so proud of you all.

Peter B. Sack, Principal
October 2004

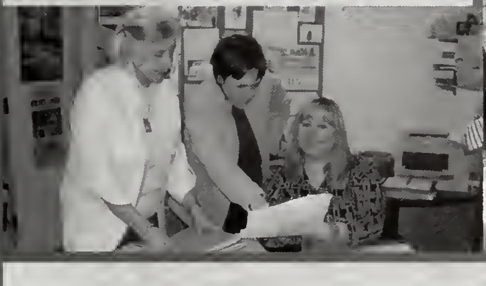
Principal Peter B. Sack

> You are an outstanding group of young people.

Dedication

Laurie Carlson

Thank you, Ms. Carlson, for all your hard work and dedication to our aspirations.



The 2005 graduating class would like to dedicate their yearbook to Ms. Laurie Carlson. From our first visits to guidance in Freshman year to sending off our applications, she has always been cheerful and welcoming into the office with a smile. Despite the huge workload and the amount of stress placed upon her, she never fails to support and encourage our future success.

Although she may not always be recognized for it, her work is the main reason the senior class will continue to succeed in whatever paths we have chosen to take. Thank you, Ms. Carlson, for all your hard work and dedication to our aspirations. We will miss you so much and always remember how you were there when we needed you the most.

Sincerely, the Class of 2005

Life is a Highway

Life's like a road that you travel on
When there's any day here and the next day gone
Sometimes you bend and sometimes you stand
Sometimes you turn your head to the wind
There's a world outside every darkened door
Where blues won't haunt you anymore
Where brave are free and lovers soar
Come ride with me to the distant shore
We won't hesitate
Break down the garden's gate
There's not much time left today

Life is a highway
I wanna ride it all night long
If you're going my way
I wanna drive it all night long

Through all these cities and all these towns
It's in my blood and it's all around
I love you now like I loved you then
This is the road and these are the hands
From Mozambique to those Memphis nights
The Khyber Pass to Vancouver's lights
Knock me down get back up again
You're in my blood
I'm not a lonely man
There's no load I can't hold
Road so rough this I know
I'll be there when the light comes in
Just tell 'em we're survivors
There was a distance between you and I
A misunderstanding once
But now we look in the eye

There ain't no load that I can't hold
Road so rough this I know
I'll be there when the light comes in
Just tell 'em we're survivors

To our senior advisor:

A senior class is nothing without a leader; someone who has been with us through bake sales in the rain, flop fundraisers, and the final success of acheiving our goals through high school and into the home stretch. From prom to our silent auction success to everything in between, you have been the advisor to see us through it all. For putting up with our slow start on fundraising and motivating us to get going and have the senior year we wanted to have, we thank you. For the countless weekly meetings and ideas, thank you.

Thank you for enabling our senior year to be the best that it can be through your encouragement and support along the way. We are sincerely grateful for all of your hard work and effort. Thank you!

Sincerely,
The Class of 2005

To the Retiring Faculty:

"Every single teacher gives a hundred million percent in effort and kindness every day to make me feel special in this cruel, cruel world. With only spending 2 years here, the teachers have made me feel so comfortable the second I walked through the doors. I want to thank you all for a wonderful experience and education."

Thea Gudonis

"As a school and a community, we will definitely miss the knowledge that they share and the lessons they've taught. Throughout most of our careers here, each one of them has touched our lives in a different way. They've helped make us into the people that we've become - both as students and as individuals."

Rebecca Lumsden

"The amount of work that you have put into this school system and into the students is enormous. Every single one of us appreciates what you've done for us and we know that we are now better off because of your efforts. I wish that the younger students would have had a chance to learn from you. I will cherish the things I've learned from you."

Fools rush in where wise men fear to tread. I guess that applies to me... maybe. Life is like a rollercoaster, you pay a lot of money to be tossed around, and before you know it you are covered in vomit. A very wise man told me that once. But maybe he was a fool... I do not remember. So everyone has most likely written some really mushy and sappy half pages. So I hope to give some advice. Misfortune tests the sincerity of friends, most people are about as happy as they make their minds up to be, a moment's insight is sometimes worth a life's experience (thank you Bizzle), keep a stiff upper lip, keep an open mind, and as Trotsky wrote before he was killed by Stalin's assassins, "in spite of everything, life is beautiful." See you in the movies class of 2005...

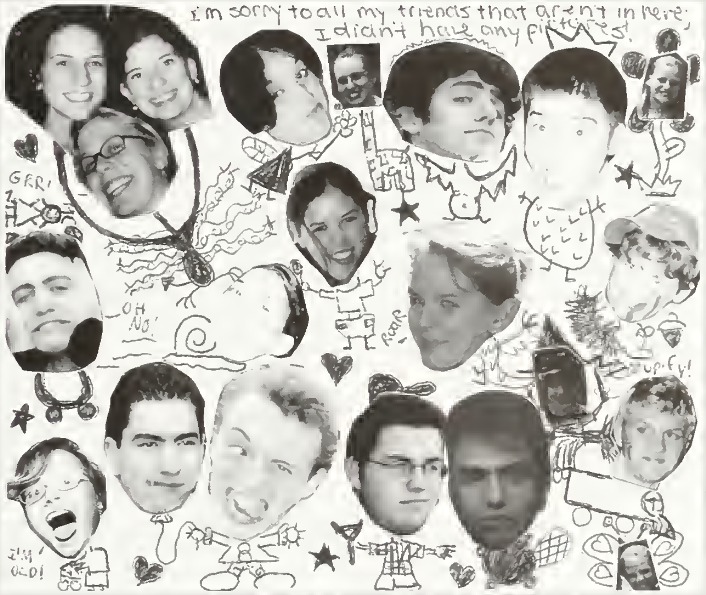
"I'm too punk rock for this", dough eyes, tea parties, dance parties, movie nights, la mano, Bootlegbob, trips to Boston, Starbucks, concerts, think Kwik, Friendly's, photo booth pictures, Josh Zach, making new friends, making movies, Sarah's home videos, picnic days, to my soccer girls "losing was never so much fun." All my friends that are included in these memories are: MB, KB, AM, AC, DB, SB, AB, MW, SL, KD, CG, JG, DH, CV, RM, WS, AT, TW, AK, CB, SP, SB, KA, LB. Thanks to all of you who stuck with me through my emotional times, I know it must have gotten really annoying. You are all amazing people and I hope you stick with being yourselves because that is what makes me smile the most.



I'm sorry to all my friends that aren't in here, I didn't have any pictures!

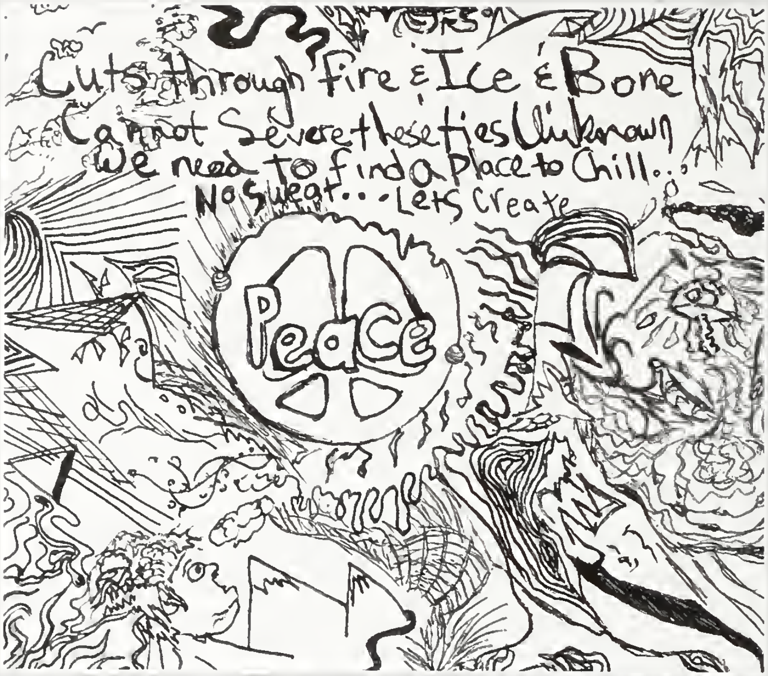
Where blues won't haunt you anymore

Stay out of trouble kids. You can call it the future
Can call it the end.
A steady slap, a fighting cat
The moment ends though I feel winds
Too bad we couldn't cure longer
It's original that song is over
4 years doesn't seem long ago
Laugh all you want but we will continue to
Overcome the devils with a thing called love
Bad craziness and good ignorant bliss
The turtle that surfaces above in the mist
From the afternoon's rain fall,
Basks in the sun and cools off, chills... looks at you and says
Don't give up kid. If life were easy and not so fast
Wouldn't think about the past
I've been sitting here with the raggedy crew,
Because getting up means stepping on you but,
Don't mind failing in this world.



Cuts through Fire & Ice & Bone
Cannot Severe these ties Unknown
We need to find a Place to Chill...
No Sweat... Lets Create
Peace

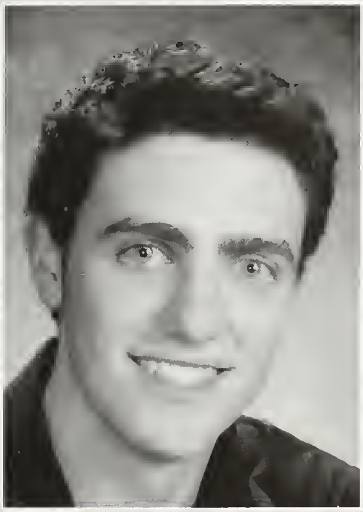
We won't hesitate



What can I say - high school has been the best of times and the worst of times - but mostly the first kind. I just want to thank all of my friends and family who have always been there for me. We've all had a lot of fun together (and I'm not going to list you guys because you know who you are) and we've all learned a lot. I can't believe the four years of high school are over. I know I never would have made it if it wasn't for my friends. I don't know where I would be without them. I want to thank Lauren D for all the times we would go shopping together. Alex for all the fun we had driving around in her car with the music blasting. Lauren M for bring there when I needed someone to talk to. Kelsey for being able to share and trade books with. Most of all I want to thank my best friend Jeremy. He has been there for me since the middle school. Without him these seven years would have been a nightmare. My family is who I want to thank the most out of anyone. They have been there through my ups and downs always ready with a smile and a laugh. Without them I wouldn't be the person I am today.

Live it up when you get the chance

Katelyn Elizabeth Orlando

Life is beautiful, what more can I say? Sure I could tell you to be nostalgic, and remember the time you lost a shoe at recess, or the time you made up an ode to cheesecake just so you could have some. I could call you souper, or reminisce on those chilly October days, when pumpkins strangely resembled Jesus. I could also tell you to run full force into the world while you're still full of ambition. But all I really want to say is that I hope you enjoy each moment as it comes, and appreciate our world for its glory. Also, remember the words of a wise fraggle who said, "What is, is. What was, was. What will be, will be." I love you all, and you know that. Remember to live, Sarah

As the senior class, we are the group that has been around the ongest as of now. After we leave, there will be another class to say this... but for now it is us. Since we can say this, we can also say that you have cleaned up more of our messes, set up more of our events, and been there to help us with any tasks we have asked of you. We graciously thank you for everything you have done for us. From fundraisers, to debate tournaments, to sporting events, all of you have been there to do the things needed of you. On graduation day, you will be there to help set up the chairs and platforms, and watch us prepare to leave our high school years behind. We thank you and miss your cheerful personalities already.

To Our Class of 2005:

By the time you read this, high school will be a few days away from being only a memory. As editors of the yearbook, there's no reason for us to be saying any of this more than anyone else should, but here we are nonetheless. You are all unique and outstanding people, and if you put your all into everything or anything you do, you will succeed. We are a class with an exceptional balance of personalities, talents, and perspectives. We have done our best to make this yearbook an accurate representation of who and what we are, and we hope you will look back on it in the future and remember our high school years for what they were.

We wish you all the best,

Lauren & Ash

Paul Murphy

"It's certainly been a pleasure to work with all five of them. They have given a tremendous amount to Manchester Essex Regional High School both to students and faculty - they will be missed greatly. I consider them all not only colleagues but friends of mine."

Tom Atwater

"In losing the retiring teachers, we not only are going to miss their intellectual contributions to our school, but just as importantly, we are going to lose a lot of the history that made us as great as we are today."

Dan Koughan

"Liz and Tim have been the best possible mentors a younger teacher could ask for. They've helped me and my colleagues in the English Department grow and become better teachers through their extraordinary example. More than missing them as mentors, I'll miss them as friends."

"We're going to miss Mrs. **Barker**'s wit, her talents, her food, and her friendship. She is truly an icon in her field and a good friend."

- Mrs. Sue Krause and Mrs. Cathy Hunt

"I have a tremendous respect for **Linda Crosby**. She has been a wonderful friend and mentor and has brought so much to this department and school. We will miss her dedication to the students and the community - it's very hard to accept that she's leaving."

- Ms. Laurie Carlson

"Ask any student who has had **Bob Heil**, and they will likely tell you that he was their favorite math teacher. Over the past few years I have managed to learn why. Bob has a wonderful way of connecting with the students, of speaking in terms that they can understand....He has been an outstanding role model for all of us in the department, and I feel privileged to have worked with him."

-Mr. David Alger

"Like everybody else in our school, I have learned from **Mrs. Wansong** and I will miss having her here very much."

-Dr. John Stuart

"No individual teacher or student can summarize the impact and importance of **Mr. Averill's** life and career. How do you measure dedication, generosity, enthusiasm, and compassion over 35 years?... From the countless bachi ball games and hundreds of debate trips to simply being a friend to students and staff alike, Aves will always be remembered. Like so many, I consider myself one of the lucky ones for knowing him."

-Mr. Dan Jewett

Memories '05

"I feel in my heart that out of the eleven years I've been here, this class is the most school spirited and the most respectiful class in a long time. I feel that you will all do very well in the future."
-Mrs.Cathy Hunt

"The class of 2005 I would describe as the most optimistic, hard working, full of life and hope. But at the same time there's a great sense of humor, a sense of fun. Very strong academically, and just funny."
-Ms. Debra Isensee

"I couldn't have picked a better class to graduate with."
-Mr. Tim Averill

"Your class had the best mix of academics and ... you guys were fun, too . No only did the class do well academically, but you made the time to have fun."
-Mr. Keith Gray

"This class will be a special class for me because I've had many students in m class for a couple of years at least - I think they're awesome, and I'm going to miss having them in the school next year."
- Mr. Rob Bilsbury

"I've been impressed by this class - by what they've acheived, their sense of humor, and their general 'good-natured-ness.' I will miss them dearly."
-Mr. Luke Conlin

"My biggest memory of the Class of 2005 is that they are my fellow graduates it only took them six years, but it took me 34. The biggest thing about this clas is that they are outstanding students and outstanding people; you don't always have people doing everything in the school, but this class has."

Ashley & Lauren:

Thank you! Thank you! Thank you!

You have been an extraordinary pair of leaders...I couldn't ask for two better people to guide me and the staff in creating this great gift for the class of 2005. I have no doubt that you will both meet with amazing success in your college careers. I will miss you both!

Best Wishes, Mrs. Kesterson

To the 2006 Staff:

The only advice I can give you is this: spell check, use page surfer, and if you don't have obsessive-compulsive disorder like me... you're gonna have to *make* yourself have it. I know it may get tedious at times, but stick with it, because the more time put into the Anchor 2006, the better it will be. Good Luck, I know you all will make another amazing book... and please do not call me at Elon if you need help. Love, Ash

You yearbook staffers have saved our butts so many times, I can't begin to thank you! Yearbook is a crazy thing, but once the end is in sight, the reward is so worth it. You guys will have a great book next year if you can manage to get there without pulling your hair out. :) I have faith! Good luck, and remember to have fun - this book will come away only with what you put into it, so give it your best.
Much love -- Lauren

Lauren Joy . . . I Hope You Dance

I hope you never lose your sense of wonder
You get your fill to eat but always keep that hunger
May you never take one single breath for granted
God forbid love ever leave you empty-handed
I hope you still feel small when you stand beside the ocean
Whenever one door closes I hope one more opens
Promise me that you'll give faith a fighting chance
And when you get the choice to sit it out or dance
I hope you dance . . . I hope you dance
I hope you never fear those mountains in the distance
Never settle for the path of least resistance
Livin' might mean takin' chances but they're worth takin'
Lovin' might be a mistake but it's worth makin'
Don't let some hell-bent heart leave you bitter
When you come close to sellin' out reconsider
Give the heavens above more than just a passing chance
And when you get the choice to sit it out or dance
I hope you dance . . . I hope you dance
Time is a wheel in constant motion always rolling us along.
Tell me who wants to look back on their years and wonder
Where those years have gone.
I hope you dance . . . I hope you dance . . . I hope you dance
